

Ahsan Azam

Software Engineer

Software Engineering graduate from Mirpur University of Science and Technology (MUST) with strong skills in front-end and back-end development and a growing specialization in Machine Learning. Experienced in building responsive web applications, developing scalable backend systems, and applying machine learning techniques for data analysis and model development. Currently pursuing MS in Computer Software Engineering at UET Mardan to further strengthen technical expertise and research capabilities.

Education

BS Software Engineering
Mirpur University of Science
and Technology (MUST)

2020 – 2024

**MS Computer Software
Engineering**

University of Engineering and
Technology (UET), Mardan

2025 – 2027 (In Progress)

EXPERIENCE & PROJECTS

Front-End Development

- Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, and React
- Improved user experience through modern design and optimized layouts

Back-End Development

- Built scalable APIs and backend systems using Node.js
- Designed efficient server-side logic and handled data integration

Machine Learning Projects

- Applied machine learning algorithms using Python
- Performed data preprocessing, model training, and integration
- Worked on real-world datasets for analysis and prediction
